

AC Isocool PS

AC Isocool PS serves as a cooling media ('freezer liquid') for storing the sealing pistol during breaks when manufacturing insulating glass. AC Isocool PS does not contain ethyleneglycole or diethyleneglycole. It can be used for sealants based on polysulphide or polyurethane.

Specification

Density:	1.030 - 1.050	DIN 51757 (20 °C)
Refractive index:	1.425 - 1.441	DIN 51432 (20 °C)

Application

AC Isocool PS is filled into the coolant tank undiluted. It can be washed off with water without any problem.

Usable temperature range: max. -25 °C

Handling and Storage

Safety instructions for the handling can be found in the Material Safety Data Sheet. Stored in well-closed containers at temperatures between 5 and 40 °C the minimum shelf life of AC Isocool PS is 1 year.
