

Product description

- CERA product
for use with spacer bar:

Plug for Gas Corner Key

for various spacer systems

- **Purpose:** Secure closure for gas corner keys during manual gas filling.
- **Material:** PA, non-mixed material of prime quality only
- **Fogging test 1279-4:** by MPA Darmstadt
- **Protection by patent:** Design protected by CERA property rights
- **Handling** After filling with the probe, the plug is pressed into the drill hole of the gas corner key. The flag is pushed to the side. This causes the flag to break at the predetermined breaking point above the closure. The glass pane can then be sealed cleanly.
- **Item colour:** grey, black
- **Environmental sustainability:** safe to use and represents no health hazard, completely recyclable
